Product code	Range of nails	Fixings per charging	Nail type	Dimensions	Weight	Gas container type	Magazine capacity	Battery charging time	Noise level
	[mm]			[mm]	[kg]				
R-WW90II 	50-90	8000	Paper collated at 34°	394x121,4x407	3.8	GP6	60	0.5	94
Gas for gas powered nailers		Cleaning kit for gas actuated tools							
	R-RAWL-GP6 Gas for the R-WW90II nailer providing the best attainable parameters and high efficiency				R-KIT-WW90/SC40 Cleaning kit for the SC40, SC40II, WW90CH and WW90II gas actuated tools				
Charger with power cord		Battery pack							
		SP-WW90/SC40II-CH Quick charger (30 min of charging time)				SP-WW90/SC40II-AK Li-Ion batteries 2.5 Ah, 7.2 V			

THE PACKAGE CONTAINS

- R-WW90II gas powered nailer
- 2.5 Ah 7.2 V Li-Ion battery
- Power adapter
- Charger (30 min)
- Operation manual
- Safety goggles and hearing protectors
- Suitcase

ASSOCIATED PRODUCTS

	Ring shank nails	Smooth nails
galvanized	 R-DRG-V Zinc plated ring shank nails for roofing, timber frame houses and all other wood to wood applications.	 R-DPG-V Smooth zinc-plated nails intended for construction of roof structures, framework houses and prefabricated wooden structures
bright	 R-DRK-V Bright ring shank nails for roofing, timber frame houses and all other wood to wood applications.	 R-DPK-V Smooth paper collated nails intended for application in roofing works, construction of framework houses, and similar building applications.

SUBSTRATE MATERIAL

Wood, structural timber, plywood, OSB, particleboard

The WW90II 2nd generation gas powered cordless framing nailer for all wood to wood applications. Portable power with no cables or air hoses to restrict your movement, with a charging time of only 30 minutes the 2.5Ah battery will drive 8000 nails on a single charge.

INSTALLATION GUIDELINES

The tool has been designed with repetitive fixing in series in mind. Fast repetitive nailing only 0.2 seconds per fix.

1. Press and hold the tool against the substrate until the lock is released.
2. Wait a fraction of a second to let the gas and air create an ignitable mixture.
3. After a short while, pull the trigger to cause ignition of the mixture.
4. Pull the tool away from the fixture and take the finger off the trigger.
5. Skipping any of these steps will prevent you from performing another fixing.

R-WW90II

"GAS POWERED FRAMING NAILER. NEW STANDARD FOR POWER AND PERFORMANCE."

HIGHLIGHTS

Trust & Innovation

www.rawlplug.com

CORDLESS ALTERNATIVE TO THE MOST POPULAR SOLUTIONS USED FOR FIXING IN STRUCTURAL TIMBER.

Wide range of wood to wood applications

STRONGER & MORE EFFICIENT

Second generation tool with increased power for all applications, can easily drive 90mm ring shank nails into the hardest timber. Improved lithium-ion battery pack for cord free working, the 2.5Ah battery will drive 8000 nails on a single charge

YOUR WORK CAN BE COMFORTABLE

For greater convenience, **the position of the tools handle has been changed**, which has improved the balance of the entire machine, and as a consequence significantly increased the comfort of long-term work. In particular this one, the change will be appreciated by those operators who carry out serial works, e.g. with full roofing formwork. Another advantage for the user is a hook attached to the nailer, at which at any time you can hang the machine when it's not in use.

The new machine design also means a **complete change of the filter zone**, and therefore will improve the cleaning quality and as a result extend the life of the device. The new R-WW90 II fastener only requires standard periodic cleaning and inspection - ensuring this, you will get a device reliable for years.

WORK SAFER, FASTER WITH MORE PRECISION

The larger combustion chamber offers increased power for a wider range of applications. Easy depth adjustment ensures accurate driving. Nose protection cap to avoid marking the timber surface.

R-WW90II

Quick, reliable and efficient fixings

Modified tool design for easier cleaning and maintenance, ensuring **reliability for years**

Increased power of **104J** for all applications, can easily drive **90mm ring shank** nails into the hardest timber

Guarantee of precision and simplicity of use thanks to the **efficient nailing depth** adjustment feature

NEW ergonomically designed grip position for improved balance and working comfort

Reducing losses in material to a minimum thanks to protective muzzle cap - safes wood surface before damages

Lithium-ion power pack for improved efficiency. Battery with performance of **8,000 fixings** and minimal **30 minutes** charging time

Comfortable hook allows to hang up nailers on time breaks at work.

INNOVATIVENESS

The tool's lithium-ion power pack not only provides high performance from every battery, but also ensures low energy demand and additional energy saving capabilities. The outcome is up to 8,000 fixings on a single battery.

MAXIMISED EFFICIENCY

Tool power increased to 104 J to ensure top efficiency of use in all fundamental materials and in all applications.

MOBILITY AND EFFICIENCY

Cordless alternative for the most popular applications – no need for power cables or compressed air hoses

IMPROVED DESIGN AND ERGONOMICS

The tools' new design and ergonomics ensure reduced fatigue and excellent user experience, as well as easy nailing depth adjustment without the need for any instruments, which provides unparalleled handling precision.

WIDE RANGE OF APPLICATIONS

- Battens and counter battens
- Roof boarding
- Framework house structures
- Facades and soffits
- Formwork fixing
- Terraces and arbours
